EXPERIENCE

Research Assistant

Indian Insittute of Science

May 2018 – Jan 2019 Bangalore, India

- Implemented image processing techniques on different video graphic data for animal detection in ecology.
- Techniques used are image segmentation using **Colour threshold**, motion detection using **Image subtraction** and tracking species using **Convolutional Neural Networks**.
- **Technologies Used:** Python,Matlab

ACADEMIC PROJECTS

Food detection on 2-D pictures using Deep learning

Uppsala University

January 2020 – March 2020 Uppsala, Sweden

- Created a model to detect food items (Pancake,Bread,Milk,Cheese and Apple) using state- of-the-art,real time object detection system called **YOLO (You only Look Once)**. Code
- **Technologies Used:** Python, Tensorflow

Automated Hand-Gesture Hospital Receptionist Communicator

Uppsala University

March 2020 - June 2020 Uppsala University

- Built a system that takes a video showing gestures as input and makes a virtual agent respond to these gestures.
- Extracted the landmarks of the hand using **Convolutional Neural Network** model, detected the hand gesture using **Multi Layer Perceptron** and used the detected gesture to show the response of a virtual agent. Code
- **Technologies Used:** Python, IntelliJ IDEA , Kotlin;

American Sign Language Hand Gesture Recognition

Uppsala University

January 2020 - June 2020 Uppsala University

- Recognizing the American Sign Language Hand gestures using basic **Convolutional Neural Network** and compare how accurate our solution is when performing **Data augmentation** methods on the images in our dataset. Code
- **Technologies Used:** Python

CAREER OBJECTIVE

To pursue a career in the field of Computer Science and be part of a progressive organization that gives scope to enhance my knowledge and skills to reach the pinnacle of the organization.

EDUCATION

M.Sc. in Computer Science

Uppsala University, Uppsala,Sweden

September 2019 – Ongoing

Courses: Image Analysis, Machine Learning, Algorithms and Data Structures,Database Management and Database design

B.Tech. in Computer Science and Technology

Bangalore,India

September 2015 – July 2019

Courses: Machine Learning, Compiler Design, Web Development, Computer Networks

SKILLS

Programming Languages - HTML CSS JavaScipt Python

Analytics Language - OpenCV MATLAB

Storage - MySQL MangoDB

Deep Learning - Keras Tensorflow

Platforms - Windows Linux

Framework - Node JS React Js

EXTRA CURRICULAR ACTIVITIES

- Football
- Ultimate Frisbee
- Keyboardist
